Why Should You Attend?

We are at a Cross Roads! Critical issues face the Hopi Tribe and the Navajo Nation concerning our tribal water, coal, environment, our culture and our economy. We must become informed of the big issues that will affect our tribes for hundreds of years to come. Our tribal councils are not informed of, nor do they understand the complex uses that lie before them. As tribal members and stakeholders, we must become educated and informed of these issues so that we can educate the elected officials to make the proper and informed decisions. This is an opportunity for everyone to share their concerns and participate in setting a direction to addressing these important issues. We all have common issues. How do we work together to preserve and conserve our resources for our future generations? Come learn about these issues and express your concerns

Come and Get involved. Topics will include:

- Ⓢ Peabody Coal Lease Reopener
- Ⓢ Peabody Lease Compliance/Non-Compliance
- Ⓢ Higgins June 2011 Report on the Affects of Peabody's Pumping of the N-Aquifer
